SOLUTIONS FOR 3D MEASUREMENT

**1st Horizon**
3D SCANNER STORE

3D SCANNER STORE

YOUR ROUTE TO
3D SUCCESS

3D Scanner Store is a one-stop shop for 3D laser scanning products & applications. We provide 3D laser scanning solutions for the global service industry.

Why choose us?

- UK training partner for FARO Europe.
- Authorized reseller of FARO products.
- Vast industry knowledge & experience.
- Impeccable customer service and support.
- Dedicated team of experts can advise, guide & support customers all the way.
- Turnkey 3D laser scanning and modelling services.

PRODUCTS & SECTORS

FARO Focus 3D laser scanners are the perfect solution for projects that require complete and accurate 3D data capture.

The FARO Focus 3D is very compact and encompasses an integrated touch screen which makes it simple and intuitive to use. We can supply our customers with a complete range of 3D scanning equipment, accessories and software.

Industries we service are:

- Surveying
- Architecture, and Civil Engineering
- Inspection and Reverse Engineering
- Process, Power & Plant
- Shipbuilding, Automotive & Aerospace
- Facility and Asset Management
- Heritage and Archaeology
- Law Enforcement and Forensics

EQUIPMENT HIRE

3D Scanner Store has a huge fleet of hire equipment enabling us to facilitate rapid response & turnaround times. The almost certain availability of equipment is extremely valuable to our customers.

Benefits of Hiring

- No large capital investment required.
- No asset depreciation with the release of new scanning technology.
- Up-to-the-minute equipment.
- No need to purchase multiple software packages or accessories. We can provide you with all the appropriate software & accessories.
- Assess the long-term suitability of the unit in a practical sense before making a commitment to purchase.

Hire options

We offer several different hire options and we can accommodate any project.

1. Self-hire of equipment and accessories
2. Hire of equipment, accessories and operator
3. Bespoke hire and training on live projects
4. Overseas hire
5. Hire with insurance cover

TRAINING

Our highly qualified team are able to train & guide you to develop the most streamlined techniques possible for your specific application.

Benefits of Our Training Programmes

- Training can be delivered at a location of your choice, or at our dedicated training facility
- We are Faro Europe's UK training partner.
- Post-training support is always on hand.
- Both structured & bespoke training courses are available.
- We offer advanced training and consultancy packages to suit your needs
- Training can be delivered on a live commercial project.

The Packages

1. Faro Focus 3D - Basic 1 Day

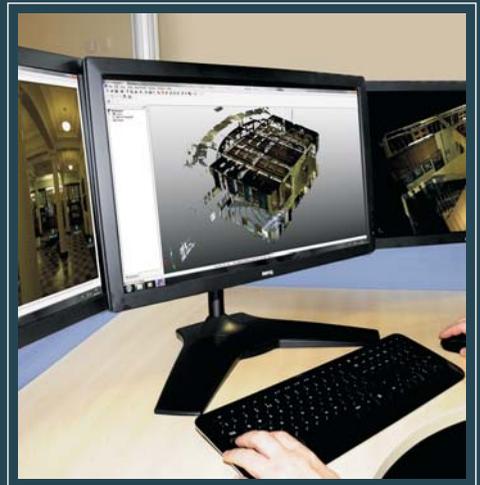

The 1 day basic training package is intended for very simple use of the scanner & Scene software.

2. Faro Focus 3D - Basic 2 Day

The 2 day basic training package is our most popular course and the one we would usually recommend for beginners. This course covers most aspects of the scanner and Scene software use.

3. Advanced Training & Consultancy

For intermediate or advanced users we are able to provide bespoke training packages on a consultancy basis.

SUPPORT

We are able to draw on our pool of expert staff to support, guide & advise our customers. We act as a first line of enquiry with software & hardware queries which takes much of the pain out of the maintenance of your laser scanning system.

Our underpinning knowledge of 3D laser scanning has been gained from our longstanding heritage within the commercial 3D scanning industry. This allows us to instil confidence in our customers and a peace of mind that they will receive sound and reliable advice & guidance.

Contact us:

Telephone, e-mail and even on-site support can be provided to our customers when required. All customers will receive a basic help and advice service.

1st Horizon 3D Scanner Store

Bridge Suite, The Old Corn Mill,
Lee Lane, Millhouse Green,
Sheffield S36 9NN
